Library of Congress Classification System is available at: <http://www.loc.gov/catdir/cpsolcco/>

SCIENCE: Q

QA Mathematics. Computers.

SUBJECT HEADINGS

Use the subject headings listed below when searching a library catalog for materials:

- Computer networks
- Computer security
- Computers
- Database management
- Electronic spreadsheets
- Internet
- Microcomputers
- Microsoft Office
- Microsoft Access
- Microsoft Excel
- Microsoft Outlook
- Microsoft PowerPoint
- Microsoft Windows
- Microsoft Word
- Operating systems
- Word processing

REFERENCE AND CIRCULATING RESOURCES

It is important to get an overview of a topic so you have a general understanding of the issue. Background information may include: the history of a subject, facts, statistics, key terms, and the names of significant people in the field. Sources for background information include: encyclopedias, dictionaries, almanacs and other materials shelved in the Reference Collection or available online.

<http://www.netlibrary.com>

(Available Off Campus—**Must create a free account on campus first.**)

These ebooks are listed in the BGTC Library Catalog and are indicated by the words, [electronic resource], following the book's title in the catalog listing. There are a large number of ebook titles on Microsoft Word, Excel, Access, PowerPoint and Publisher. Many of the "...for Dummies" computer guide books are included.

WEBSITE RESOURCES

- **Certiport (IC3):** <http://www.certipoint.com>
The Internet and Computing Core Certification (IC3) program is the world's first validated, standards-based training and certification program for basic computing and Internet knowledge and skills. Successful completion of IC3 ensures you have the knowledge and skills required for basic use of computer hardware, software, networks, and the Internet.
- **Consumer Reports:** <http://www.consumerreports.org/>
Consumer Reports features ratings and recommendations on thousands of products and services in categories including electronics and computers. Provides free access to helpful advice; safety alerts; recalls; and information sites; and much more.
- **HowStuffWorks:** <http://computer.howstuffworks.com/>
This site offers easy-to-understand explanations of how stuff actually works. In addition to comprehensive articles, the site includes helpful graphics and informative videos.
- **Microsoft Office:** <http://office.microsoft.com/en-us/training/FX100565001033.aspx>
Microsoft's training home page which provides links to tutorials on MS applications
- **PC Magazine:** <http://www.pcmag.com/>
Provides comparative reviews of computing and Internet products.

- **Smart Computing:** <http://www.smartcomputing.com/>
Website for this monthly magazine which includes a *Q&A* section; *PC Operating Instructions*, which focuses on the fundamental skills of using various operating systems; and *Quick Studies*, which contains how-to articles explaining a single feature of major applications such as Microsoft Word, Microsoft Excel, WordPerfect, and Quicken.
- **World Wide Web Consortium (W3C):** <http://www.w3.org/>
This is an international consortium where member organizations, staff, and the public work together to develop Web standards. W3C's mission is: "To lead the World Wide Web to its full potential by developing protocols and guidelines that ensure long-term growth for the Web."

EVALUATION & CITATION

The Kentucky Virtual Library (KYVL) has tutorials on how to do research at <http://www.kyvl.org/html/tutorial/research/>.

Provides assistance with *Evaluating Information*, *Searching the Web* and *Citing Sources*.

Evaluate all information carefully. Websites present additional challenges. Use the evaluation criteria below to determine the quality of information sources.

- | | |
|-----------------|------------------------------|
| #1: Authority | (who's responsible?) |
| #2: Accuracy | (is this for real?) |
| #3: Objectivity | (what's the bottom line?) |
| #4: Currency | (how timely is this?) |
| #5: Coverage | (what's included? Excluded?) |

A good researcher uses a standard citation format to identify the information used and give credit to its creator. Consistency is crucial.

Revised March 2009
